Nitrile Exam Gloves, Powder-Free, Medium, Blue

Item # DEM-1001 | Examination Gloves

Powder-free nitrile exam gloves with textured fingertips for a secure grip during clinical and dental procedures.

Product Overview

Latex-free, powder-free nitrile examination gloves designed for everyday use in dental operatories and medical exam rooms. Textured fingertips improve grip on instruments, beaded cuffs make donning easier, and the ambidextrous design fits either hand. Tested to ASTM D6319 and suitable for chemotherapy drug handling per ASTM D6978.

Key Features

- Textured fingertips for a secure grip on instruments
- Beaded cuffs for easier donning
- Ambidextrous design fits either hand
- Latex-free and powder-free
- Suitable for chemotherapy drug handling (ASTM D6978)
